Herziening CPR + CPR-Acquis: huidige stand van zaken

CE-Forum

16 November 2023

Dirk Breedveld,
Senior Beleidsmedewerker Min.BZK

Stand van zaken revisie CPR

- 30 maart 2022: ontvangst ontw.rev. CPR + annexen van de COM:
 - > Nader info: zie presentatie CE-Forum vorig jaar (17nov2022) en BNC-Fiche
- Juni 2022 t/m heden 2023:
 - > RWG meetings in Brussel, circa 2x per maand;
 - > Artikels- en Clustersgewijze behandeling;
 - > Raadspositie onder Zweeds Voorzitterschap Juli 2023;
 - > EP positie (IMCO Rapportage) Maart 2023;
 - > Hierop aansluitend: Juli 2023 trilogie gestart;

Stand van zaken revisie CPR

- Trilogen -> 4 Kolommen document, voorbeeld....(1660 pagina's...)

	Commission Proposal	EP Mandate	Council Mandate	Draft Agreement
Article 7(2), first subparagraph				
253	2. Member States shall respect the harmonised zone in their national law, other rules or administrative action and shall not set additional requirements for products covered by it. They shall in particular apply the following:	2. Member States shall respect the harmonised zone in their national law, other rules or administrative action and shall not set additional requirements for products covered by it. They shall in particular apply the following:	22a. Member States shall respect the harmonised zone in their national law, other rules or administrative action and shall not set additional requirements for <u>When complying with the obligations provided for in paragraph 2, Member states shall in particular apply the following in relation to</u> products covered by it. They shall in particular apply the following <u>the harmonised zone.</u>	
Article 7(2), first subparagraph, point (a)				
254	(a) no information, registration or other requirements other than those laid down in the harmonised zone shall be established;	(a) no information, registration or other requirements other than those laid down in the harmonised zone shall be established;	(a) no <u>requirements for</u> information, or registration or <u>other requirements of the product</u> other than those laid down in the harmonised zone shall be established;	(a) no <u>requirements for</u> information, or registration or <u>other requirements related to the placing on the market of the product</u> other than those laid down in the harmonised zone shall be established;

Stand van zaken revisie CPR

- Raadsvoorstel vs Commissievoorstel:
 - > Vereenvoudiging, zowel structuur als inhoudelijk o.a.
 - het schrappen van exotische producten uit de scope van CPR.com;
 - Vermindering van het aantal marktdeelnemers;
 - Ook productinformatie-eisen vereenvoudigd;
 - Gedetailleerde analyse in PDF beschikbaar -> (<https://www.kwaliteitbouwproducten.nl/>)
 - > Zie verder ook presentatie dhr. Karl Törnmarck;
 - > Onderhandelingen nog gaande, definitief oordeel nog niet mogelijk;

Verdere tijdslijn onderhandelingen CPR:

- > Volgende Raadswerkgroep 30 november as.;
- > Coreper 6 of 8 december as.;
- > 13 December as. 3^e Triloog (RWG's gaan ook door);
- > Afronding eind Q4/2023 of Q1/2024...?!;

CPR Acquis process rationale

The new CPR alone is not enough to tackle the problems on the ground. It must be complemented by the revision of the CPR Acquis.

The CPR Acquis process offers a comprehensive, structured, future-oriented, transparent and proactive process to close the gap between the old mandates and standards and the current/new CPR.

Main goal of the CPR Acquis process

The main goal of the CPR Acquis process is **to ensure a high content quality of future technical specifications**, regardless of whether they still will be adopted under the current CPR or in the future CPR.

The technical work on the **content is independent from the future form of the new CPR** where it could be cast into standards or COM acts.

Evidently, the CPR Acquis process needs **permanent adaptation to the ongoing development of requirements in the new CPR**.

Identification of priorities

Considering that not all >800 acts belonging to the Acquis can be revised at the same time, **we had to prioritize product families.**

After having identified **8 criteria** with Member States for the selection of product families to be targeted by future technical specifications, the work on the CPR Acquis has proceeded with the following steps:

- A first survey to value comparatively the 8 criteria;
- A second survey to value the importance of product families according to the 8 criteria;
- The combination of the results led to a clear priority list and thus (almost) to a consensus on what to do in which order.

Identification of priorities

criteria	points assigned in the survey on criteria	weight of the criterion
a) Member States' regulatory needs	94.2	18.7%
b) Safety issues related to the basic requirements for construction works	88.4	17.5%
c) Inherent safety issues of the construction products	71.4	14.1%
d) Environmental issues, including energy and sustainability	65.2	12.9%
e) Size of the EU market in volume	32.2	6.4%
f) Cross-border trade	46.6	9.2%
g) Potential cross-border trade	34.6	6.9%
h) Incompleteness or inexistence of harmonised standards	72.4	14.3%

Governance CPR Acquis process

“Main contributors” can be offered only by the States and shall be civil servants.

Both States and Stakeholders can offer “active exerts” or experts for “written inputs” with a progressive reduction in involvement in the process.

Detailed tasks of the subgroups

Product Area # 4 Task Name	2023							2024							
	06	07	08	09	10	11	12	01	02	03	04	05	06	07	08
Milestone I – scope of product area															
–List of products (materials)															
–List of forms															
–List of intended uses															
–List of other components of composite kits/systems															
Milestone II – creation of tech. boards															
–Working plan															
–Definition of technical boards															
–Attribution of experts															
Milestone III – content of HTS															
–a.1 BWRs & essential characteristics															
–a.2 Classes and thresholds															
–a.3 Assessment methods															
–a.4 Maintaining performances															
–b.1 Environmental performance															
–c.1 Functional requirements															
–d.1 Inherent safety requirements															
–d.2 Inherent env. requirements															
–e.1-4 Information requirements															
–f.1 Possible conflicts															
–g.1 Simplified procedures															
Milestone IV – Final consultation and evaluation															
–Evaluation of the outcomes															
–Draft of reporting outputs															
–Consultation															
–Adoption of the outcomes															

Gantt chart of subgroup 4: "Thermal insulation products. Composite insulating kits/systems"
